Lambda Omicron
West Virginia University
SOW Wing Mountainlair
Morgantown, West Virginia 26505

Dear Brothers:

Please accept my heartiest of congratulations on the 50th Anniversary of the chartering of Lambda Omicron Chapter at West Virginia University.

While I cannot be there with you today for your celebration, please know that I am there in spirit. Today is very important because you have helped to further the dreams of our Founders.

The rich history of Lambda Omicron shares an important place in the history of Alpha Phi Omega. Projects that the Chapter have been proud of over the last 50 years like the Football passing marathon or the dedication of the bell from the Armored Cruiser USS West Virginia shine brightly on all of Alpha Phi Omega.

Remember that each of us is just a steward of the Fraternity while we are students; making it better then it was when we arrived, and doing our part to ensure that it continues in a manner that makes the experience of Leadership, Friendship and Service as strong as possible. We each add to the foundation of APO for future members.

Fraternally yours,

Robert J. London
Executive Director
