Dear Brothers of Lambda Omicron Chapter,

Fifty years ago, Alpha Phi Omega was born on West Virginia University's campus. Since this time, the brotherhood on this campus has thrived when many did not. The chapter has prepared and developed many aspiring students to become leaders in their careers and communities.

Throughout my life in Alpha Phi Omega, I have had the opportunity to meet and become close friends with several brothers from the Lambda Omicron chapter. These relationships have been very important to me as a person and as a leader in Alpha Phi Omega. I am proud of the hard work that you do and eagerness with which you help fellow brothers from other chapters. It is with great pleasure and honor that I congratulate you on your 50th Anniversary. May the beacon of Leadership, Friendship and Service shine bright on your campus for many years to come.

In Brotherhood and Service,

**J. Adam Bolain
Region V Director**
